STUDENT PARKING PERMITS

Each year students with a driver's license desire parking on campus. Unfortunately, the demand for parking exceeds the supply. The criteria for the assignment of parking are based primarily on the goal of bringing the largest number of students to the campus each day. The priority system below reflects that purpose.

Parking is assigned based upon car pool size; that is, four-man carpools have priority over lesser-sized carpools or class seniority. Priority among similar sized carpools is established by the date a completed application is received. Completed application is defined as this form completed, a copy of the driver's valid license, and parking fee submitted. (Learner's permits are NOT acceptable) As a last resort, class seniority, i.e. seniors versus juniors will be used as a tie breaking criteria. Virginia law restricts 16-year old and first year drivers to a single passenger. While that disadvantages our youngest drivers, it does seem to be consistent with the intent of the law to limit the number of passengers with our least experienced drivers. Additionally, students who are disciplinary alert, probation or suspension are not eligible for parking privileges. This includes students that end the academic year with unserved detentions.

Application forms may be obtained in the main office during the summer, but remember one consideration in the process is the date of completed applications. Application received after August 15, 2006 will be placed on the waiting list. The school will cash checks when they are received. Checks should be made payable to: Bishop Ireton High School. If you do not receive a parking assignment, your money will be refunded by mail in September.
